

Environmental Management Services

Capabilities Statement

Environmental Program Management

Haselwood Enterprises, Inc. (HEI) personnel have experience in developing and executing high-consequence, high-visibility programs and projects at Federal facilities

Proven Capabilities

- Personnel with decades of experience in leading successful environmental management (EM) programs
- Staff with operational and policy experience in contractor and Federal roles
- Demonstrated success providing integration and oversight support for construction and operation of environmental capital projects

Through direct experience throughout the DOE Complex, Haselwood Enterprises, Inc. (HEI) personnel have developed a detailed understanding of DOE's environmental management objectives in Federal, state and local contexts. Our staff members have played major roles in successful planning and execution

of environmental remediation and waste management activities at the Y-12 National Security Complex, Oak Ridge National Laboratory, East Tennessee Technology Park, Portsmouth Gaseous Diffusion Plant, Paducah Gaseous Diffusion Plant and Savannah River Site.

Areas in which HEI provides environmental program management support include:

- Comprehensive life-cycle planning and management, including complex transformation
- Environmental remediation and waste management program and project management consistent with DOE Order 413.3A
- Waste and excess materials disposition project planning and coordination
- Performance measures development, implementation and evaluation
- Developing and sustaining relationships with regulators, tribal nations, state and local governments and local communities

Haselwood Enterprises, Inc.
